Nikon announces reorganization of corporate structure

March 6, 2020

TOKYO - Nikon Corporation (Nikon) announced today the reorganization of its corporate structure as outlined below, scheduled for April 1, 2020.

Reorganizing the Information Security Department

To expedite decision making process, Nikon is reorganizing the Information Security Division into the Information Security Department, a subordinate organization of division.

Establishing the Digital Solutions Business Unit

Nikon is newly establishing Digital Solutions Business Unit, integrating the Precision Components & Modules Business Unit and Encoder Business Unit. This will boost the launch of Material Processing Business and Vision Systems / Robotics related businesses, positioned as growth strategies, by collaborating with Next Generation Project Division which holds development function.

New Organization of Nikon Corporation
